DEPARTMENT OF ENERGY

Notice of Intent to Prepare An Environmental Impact Statement Concerning Interim Storage of Plutonium at the Rocky Flats Environmental Technology Site

AGENCY: Department of Energy.

ACTION: Notice of Intent.

SUMMARY: The Department of Energy (DOE) announces its intent to prepare an Environmental Impact Statement (EIS) pursuant to the National Environmental Policy Act (NEPA), in accordance with the Council on Environmental Quality (CEQ) Regulations for Implementing the Procedural Provisions of NEPA and the DOE NEPA implementing regulations. DOE has identified a need to provide safe interim storage of approximately 10 metric tons of plutonium at the Rocky Flats Environmental Technology Site (RFETS). The plutonium at RFETS is in the form of both metals (including plutonium-bearing weapons components known as "pits") and oxides. The 10 metric ton amount includes the current plutonium inventory at RFETS as well as the additional inventory projected to be generated from future processing of plutonium residues into more stable forms suitable for safe storage. DOE intends to prepare an EIS to evaluate the potential environmental impacts associated with reasonable alternative means of providing the needed storage. **DATES:** The public scoping period begins with the publication of this NOI and will continue until August 16, 1996. Written comments postmarked by that date will be considered in the preparation of the Rocky Flats Plutonium Storage Environmental Impact Statement (EIS). Comments
